About SHREE DEVANAGARI 714:

Shree Devanagari 714 is a Sans-Serif font available to Apple computers by default. I chose this font because I wanted to express freshness and informality. Shree Devanagari is a rounder sans-serif font, which helps it convey this. There was not much information available about the font's history and creation.

Audience: *Fruit-lovers, People interested in knowing about fruit*

Design Message: *Fruits are bright, fun, sweet and sour, and good for you!*
